

In the Claims:

- 1.(original) A cleaning composition comprising at least 80 percent by weight water, at least 1 percent by weight of an amphiphile, and at least 0.005 percent by weight of hydrocarbon.
- 2.(currently amended) A cleaning composition according to ~~as claimed in~~ claim 1, wherein the water the amphiphile and the hydrocarbon co-exist as a single phase without separating from each other as layers.
- 3.(currently amended) A cleaning composition according to ~~as claimed in~~ claim 1 ~~or claim 2~~, wherein the composition contains at least 96% w/w water.
- 4.(currently amended) A cleaning composition according to claim 1 ~~as claimed in any preceding claim~~, wherein the composition contains 2 to 8% by weight of amphiphile.
- 5.(currently amended) A cleaning composition according to claim 1 ~~as claimed in any preceding claim~~, wherein the amphiphile is a glycol ether.
- 6.(currently amended) A cleaning composition according to ~~as claimed in~~ claim 5, wherein the glycol ether is a compound of the formula $R^1O(RO)_nH$ in which R is a C_1 - C_8 alkylene group, n is at least 1 and R^1 is a C_1 - C_8 alkyl group, or is an optionally substituted aryl group.
- 7.(currently amended) A cleaning composition according to ~~as claimed in~~ claim 6, wherein R^1 is a phenyl group.

- 8.(currently amended) A cleaning composition according to claim 1 ~~as claimed in any of claims 1 to 4~~, wherein the amphiphile is a 1-alkyl-2-pyrrolidone.
- 9.(currently amended) A cleaning composition according to claim 1 ~~as claimed in any preceding claim~~ wherein the hydrocarbon is present in an amount 0.05 to 0.5 percent by weight of the composition.
- 10.(original) A cleaning composition comprising water, a hydrocarbon and an amphiphile, which composition exhibits Marangoni behaviour when exposed to air.
- 11.(currently amended) A method of cleaning a soiled substrate, comprising the application to the soiled substrate of a composition according to claim 1 ~~as claimed in any preceding claim~~.
- 12.(currently amended) The use of a composition according to claim 1 ~~any one of claims 1 to 10~~ for the cleaning of household substrates.
- 13.(currently amended) A packaged household cleaning product comprising a composition according to claim 1 ~~any one of claims 1 to 10~~.
- 14.(new) A cleaning composition according to claim 1 wherein the composition is in the form of two or three phases in mutual chemical equilibrium.
- 15.(new) A cleaning composition according to claim 1 wherein the amphiphile is a quaternary N-alkylaldonamide.
- 16.(new) A cleaning composition according to claim 1 wherein the amphiphile is an alkyl glucoside with an alkyl chain length of C₁₀ or less.

- 17.(new) A cleaning composition according to claim 1 wherein the amphiphile is a short chain alcohol.
- 18.(new) A cleaning composition according to claim 1 wherein the hydrocarbon has 5 or more carbon atoms.
- 19.(new) A cleaning composition according to claim 1 wherein the said composition contains one or more of: electrolyte, fragrance, surfactant.
- 20.(new) A cleaning composition according to claim 1 wherein the composition exhibits a self-induced motility.
